## **GALLERY SITE - PATOLA PHOTOGRAPHY**

### Mission:

- to showcase photography skills in an online portfolio.
- Showcase various photography set-ups like portrait, landscape, macro, night, fashion

### Measure of site success:

- If the website can adequately and presentably display the photographs and images for the user to browse on.

### Description of target audience:

- Photography Enthusiasts: they can glean some information from the website in order to make their photos better, as well as just appreciating the images that the site provides.

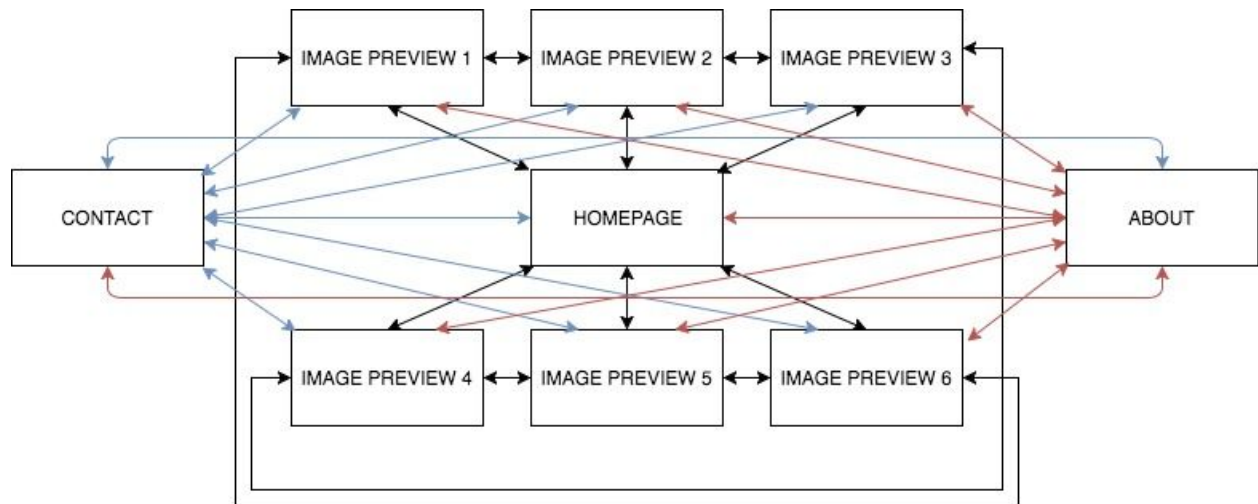

### How to assess user satisfaction:

- Through user comments and criticisms from the Contact section details.

## **Informational Structure**

Type of navigation: Linear / Mixed

## Site Flowchart

## Flowchart Explanation

To better view the gallery, the group decided to use a linear/mixed navigational structure for better browsing and access throughout not just the images, but also the accompanying Contact and About Pages.
